

Department of

Interdisciplinary Studies

Brian Felt, Dean

Danae Romrell, Associate Dean of Interdisciplinary Studies

Tammi Odell, Secretary (208) 496-1251

Associate Degree

Students who desire to transfer to another university after two years may graduate with an associate in science degree with a major in General Studies.

Bachelor in University Studies

Students who desire to tailor their own program can graduate with the Bachelor of Science in university studies. The university studies degrees requires the completion of Foundations and university requirements, a minor and two clusters, or two minors and a cluster, at least 120 credit hours of which 15 must be upper division and 30 must be taken in residence.

This degree is not designed to prepare students to compete in the job market in specific areas such as business or accounting. University studies is a degree program generally not intended for transfer; however, some graduate schools will admit students with this degree. Students who plan to attend graduate school should verify this fact before pursuing a university studies degree.

By Application Only

Important Note: Students should carefully evaluate their career goals and consult with an advisor before selecting this major. Students must meet with an advisor in the Advising Center, Manwaring 129, to discuss this degree option and to receive the instruction for the application process.

For more information on either the associate degree or the bachelor of university studies, go to the Advising Center, Manwaring 129, or call (208) 496-9800.

Bachelor of Interdisciplinary Studies

The Bachelor of Interdisciplinary Studies is designed for students who wish to obtain an educational experience that bridges two or more disciplines (a discipline is a subject such as Math, Business, Art, or English). This degree requires:

- Foundations (40 credits)
- Two concentrations; or a concentration and a minor; or a concentration and two clusters (60 credits)
- Electives to complete 120 credit hours, 30 credits of which must be in residence at BYU-Idaho, and 15 credits of which must be upper division from BYU-Idaho.

Approved concentrations are listed both under Interdisciplinary Studies and their respective departments. Students may not design their own concentration. Approved minors and clusters are listed under their respective departments. Custom clusters are not allowed with this degree.

All concentrations include IDS 398R (Interdisciplinary Internship) and IDS 499 (Interdisciplinary Capstone). These courses must show evidence of study across the concentrations, minors, and clusters included in the degree.

All students interested in designing an Interdisciplinary Studies degree must meet with an advisor in the Advising Center, Manwaring 129, to discuss this degree option and to receive the instruction for the application process. For more information on the Bachelor of Interdisciplinary Studies, consult with the Advising Center (129 Manwaring Center, academicdiscoverycenter@byui.edu), (208) 496-9800.

University-Defined Interdisciplinary Studies Degrees

There are a limited number of university-defined Interdisciplinary Studies degrees. These degrees are named to reflect the disciplines they include and are listed under Interdisciplinary Studies and their respective departments. These degrees combine disciplines to prepare graduates for specific career and/or graduate school opportunities. Information regarding these university-defined degrees can be obtained directly from the sponsoring departments. No application is required.

General Studies Courses

Courses listed under general studies include developmental courses, study skills, college success, and career decision making. They are open to all students as elective credit. GS102, is a one credit block class designed to help students improve their study skills, time management, retention, note taking techniques, text book study methods, test taking strategies, and critical thinking skills. GS105 College Success is a two credit semester long course designed to help students make a smooth transition from high school to BYU-Idaho. The GS103 A-F study skills modules are six .5 credit online courses that are four weeks in duration held at various times during a semester. These courses include: Time Management, Note Taking, Textbook Reading, Concentration, Thinking Skills and Test Taking Strategies.

| Course Descriptions | Credits* |
|---|------------------|
| IDS 398R Interdisciplinary Internship Repeatable Course: May earn maximum of 6 credits Internship Fees: \$81.50 (LDS) \$163 (non-LDS) per credit Exempt from tuition, but charged this independent course fee Prerequisite: Minimum of 70 credits The internship should reflect the interdisciplinary nature of the student's degree. Admission to the class is by application to the Office of Foundations and Interdisciplinary Studies. Applications are available through the Advising Center. Students must obtain an internship and be enrolled in the course within the first three weeks of the semester; complete reports and evaluations; and work a minimum of 100 hours per credit hour with a minimum of 7 hours per credit hours each week. (Fall, Winter, Spring) | (1-3:0:0) |
| IDS 499 Interdisciplinary Capstone Prerequisite: Minimum of 80 credits Students will create an approved capstone project or paper to showcase the skills and competencies developed in their interdisciplinary major. Senior students will work closely with a professional mentor, faculty advisor, and/or peers to develop a project or research paper that demonstrates the fusion of their undergraduate coursework and experiences. Projects and papers should be significant and relevant to the student's academic or career objectives. Students in this course will demonstrate senior-level proficiency in research, visual communication, writing, and presentation skills. (Fall, Winter, Spring) | (2:2:0:0) |
