

## INVITATION FOR SUBMISSIONS

VOLUME 2 NUMBER 2 SUMMER 2002

### “RETHINKING EDUCATION: BEYOND THE SLOGAN”

This year, for the first time, *Perspective* will publish a summer issue. We encourage members of the campus community to submit articles, book reviews, letters, etc. and to use our summer issue as a forum for “Rethinking Education: Beyond the Slogan.” As we move to fulfill the promise of the advertising campaign, we face the task of defining what makes us unique (or not so unique). Possible topics might include:

- *Specialized and Integrated Degrees*—in what ways are we creating a new academic dynamic, and how are we still similar to the old model?
- *Work and the Art of Working*—how do our teaching emphasis and high faculty loads create unique challenges and opportunities?
- *No Academic Rank*—how does this distinguish us, and what will be the long-term effects on the institution?
- *Student Activities*—how is it changing and are the students responding?
- *Service Learning & Internships*—what can we learn from other campuses, and how can we make these uniquely our own?
- *Three Track Admissions*—what have we learned so far?

Potential contributors are not limited to the above theme or topics. As always, we also want to foster and provide an outlet for general scholarship as well as individual projects, ideas, and perspectives outside of our specific theme. Thus we still encourage entries for our Open Category.

We look forward to your articles and images (both in hard copy and in an e-mail attachment or disk). Please cite sources according to the *Chicago Manual of Style* (see *Quick Access*), and include a short (100 words or less) biographical sketch.

DEADLINE FOR SUBMISSION—15 MAY 2002
