

PC: Share Screen

SKYPE
aligning technology with the learning model

BYU
IDAHO

Objective

To demonstrate how to share your screen during a Skype phone call on a Windows based computer.

Instructions

1. During a Skype call you can share your computer screen with the other caller.
2. Click the small drop down arrow on the right side of the call window.
3. Select share your screen from the menu.
4. Select what part of the screen to share, full screen or a selection.
5. Click OK to share screen.
6. If you select "share a selection", move the selection box to the right place.
7. Click "Start Sharing."
8. When finished sharing, click "Stop Sharing."
