

BS in Computer Engineering (450)

Catalog Year
2014 - 2015

General Information:

Academic Advising has provided a **recommended graduation plan** for every major we offer.

- This plan is built to meet the University’s minimum credit requirement (120 credits for a bachelor’s degree and 60 for an associate) in 8 semesters or less. Each plan includes all required courses, including Foundations and major as well as emphasis, minor or clusters (if applicable). The plan may also include elective courses to meet the credit requirement.
- Please note the following terms: Groups = A term used on the Degree Audit to reference a required group of classes that may be pre-selected or from which you can choose; General Elective = any course offering at BYU-Idaho which you are eligible to take; Major Elective = a required course from a list of multiple course options within your major. (A certain number of “major electives” may be required for your major, but you can select which course to choose from the given list.)

Semester 1	Credits	Semester 2	Credits	Semester 3	Credits	Semester 4	Credits
CS 124	3	CS 165	3	CS 235	3	CS 237	3

Special Instructions

- ~ Computer Engineering is a Specialized major; no minor or clusters are allowed.
- *Choose Option C for the Foundation Science requirement.
- **Complete either FDCA 101 and a FDCA 200-level course, or complete FDWLD 101 and FDWLD 201.
- #Supplemental Courses: Choose 1 course ECEN 380, 420, 430, 440, 450, 460, 470, 480, 490, CS 246, 313, 345, 364, 371, 416, 432, 460, 470, 480, 490R. No double counting of Major Courses, minimum of 79 credits
- ##ECEN 398R - Internship recommended to be taken during your off-track semester before your senior year.
- ###May choose any five courses among the science courses list; there is no need for the two courses to be within one subject.
- ^Take only if total credits are under 120.
