

## BS in Physics Education (870)

Catalog Year  
2014 - 2015

**General Information:**

Academic Advising has provided a **recommended graduation plan** for every major we offer.

- This plan is built to meet the University's minimum credit requirement (120 credits for a bachelor's degree and 60 for an associate) in 8 semesters or less. Each plan includes all required courses, including Foundations and major as well as emphasis, minor or clusters (if applicable). The plan may also include elective courses to meet the credit requirement.
- Please note the following terms: Groups = A term used on the Degree Audit to reference a required group of classes that may be pre-selected or from which you can choose; General Elective = any course offering at BYU-Idaho which you are eligible to take; Major Elective = a required course from a list of multiple course options within your major. (A certain number of "major electives" may be required for your major, but you can select which course to choose from the given list.)

**Special Instructions**

~Students not on a fall track (fall/winter or spring/fall) will need to contact the Physical Sciences & Engineering Academic Discovery Center, Austin 106C (208-496-9880) to declare Physics Ed as a major. They will also need to meet with them during the beginning of their fourth semester to either apply for Fast Grad or have their track adjusted.

\*PH 277 is a Fall only course.

#Complete both FDCA 101 and a FDCA 200-level course, or complete FDWLD 101 and FDWLD 201.

\*\*There are prerequisites for BIO 305 but have similar physics equivalents. Students must ask for a waiver to these prerequisites, as per agreement with the Biology Department.

~Depending on your minor, there is an Option C for foundation sciences if CHEM is part of your minor, please see catalog to see if your minor qualifies you for Option C.

^PH 311 and PH 411 are only offered Fall in the odd years, so take care to fit it in early.
